ARU transition and retention obligations

SH-LEGAL-READ-HR-001 · Reviewed September 12, 2026

SYNTHETIC RECONSTRUCTED SERVICE/EMPLOYMENT TERMS

Operating authority

Nora Ashcombe is President/COO at close; Seth Kettering remains BS&T GM. Fred Tolman retains no dispatch, hiring, capital, contract or operating command authority.

Consultancy

January 7–October 7, 2026; \$225,000 total as knowledge-transfer services are performed. Nora commissions work and accepts records. Share price and retention are separate.

Retention allocations

Nora \$100K; Gareth \$60K; Tessa \$60K; Owen \$50K; Seth \$80K; Derek \$50K; Marta \$50K; Inez \$50K. Total \$500K; each has half at six months and half at twelve months.

Conditions and timing

Installments July 7, 2026 and January 7, 2027 depend on continued service/protected departure. Pro rata protections and cause limitations are stated in the source. Scheduled installments do not prove payment.

No acquisition disguise

No award depends on headcount reduction, hidden subsidy or guaranteed Red Wash volume. Property CBAs and safety obligations remain intact.

Accounting and record trace

Compare the eight retention allocations to \$500K and each \$250K installment; reconcile earned/service cost and cash according to native periods. Keep Tolman consulting and seller proceeds distinct.

Missing evidence and limits

Individual signed originals and independent payroll-payment evidence are absent. Do not create new employees, protected-departure events or completed milestones.
