Organization chart wording review

Complete company scope · Main 7988f47 · Draft for approval

Entity cards contain only the name, location, and a brief description of the work. People cards contain only the name, job title, and joined year.

90 business, product, site, and related entries; 75 corporate, J2, system, and program entries; 62 named people candidates. Of those people, 45 are current employees or directors. There are 27 supported current join years, 18 missing join years, and 19 proposed title labels.

The appendices account for 142 detailed equipment/network/forecast records, 18 unverified mine-art labels, and 53 unnamed offices or role families. These counts describe review entries. They are not an enterprise headcount or a count of distinct owned assets.

Use the row IDs when requesting changes. Proposed titles and headquarters-based locations are marked in the review notes. Unrecorded details remain visible for a decision.

Joined means entry to the employer shown on the sheet. Acquired-company service is retained; the 2026 ARU acquisition does not replace earlier tenure. Board cards use Board appointment year.

The two mockups are design samples. Approval will precede replacement of the current chart package. The repository remains unchanged.

Items that need your decision

Missing join years and proposed titles are identified in Current people.

Several businesses have no recorded office location. Corporate-function locations are often inferred from Sacramento headquarters.

Nora Singh’s current role/employment and Martin Shaw’s current role/employer are unconfirmed. Advisory and J2 still have unnamed offices.

Current Atlas capabilities replace the old bridge depiction. Ellis “Eli” Hoberg replaces the obsolete surname-open label.

Legal ownership

Six legal entities. The tree in the mockup uses the ownership relationships recorded in the repository.

Aliases and non-person names

Older names are retained only where historical records require them. The named models below are not employees.

Name	Treatment	Source
Pharos	Superseded main-portal name; use Pinakes.	S034
Palisade	Superseded by Alexandria/Canon naming decisions.	S054
Oracle	Superseded by Alexandria/Canon naming decisions.	S054
Technology Services / Enterprise IT	Aliases of Enterprise Technology Services; one card only.	S008
JAG	Abbreviation of Junction Advisory Group, not commercial Advisory.	S026
Canon Committee	Explicitly not established; human authorship/review and Head of Orientation govern changes.	S037
Sable Harbor Management System	Ten management principles, explicitly not a process office or organization.	S055

Name	Treatment	Source
AR/VR Alexandria	Planned interfaces to Alexandria, not new institutions or currently delivered products.	S033
Named JAG teams 1-6	Six active teams are authorized but individual names and rosters are not canonical.	S020
Ned Kelly	Cradle discovery model, not employee	S002
Daedalus	AI agent, not employee	S035

Charts to replace after approval

The new package will use separate entity and people sheets. The current nine-chart registry, five J2 views, and duplicate narrative diagrams will be reconciled; the frozen historical briefing will receive a successor version.

Type	Chart family	Coverage
Entities	Company businesses	Seven current business lines plus parent/industrial holding company; distinguish Foundry platform and Foundry Field product.
Entities	Legal ownership	Sable Harbor, LLC → Industrial Holdings → Pale Sun → Red Wash; Industrial Holdings → ARU → BS&T.
Entities	Headquarters and support	Board, Office of CEO, ESS and support functions, Internal Audit, J2; distinguish administration from functional reporting.
Entities	Foundry / Foundry Field	Platform, commercial product and application families; application-family names remain provisional.
Entities	Atlas Meridian	Current product organization and product capabilities; Advisory uses Atlas but is a distinct professional business.
Entities	Willow / the Fort	Laboratory and Fort buildings/yards; Klein is historical.
Entities	Pale Sun / Red Wash	Operating companies and mine assets; no speculative downstream operating business.
Entities	Cradle / Bedford	Business, recovery installations and Bedford; Kelly Gang and Demotte are external host operators.
Entities	ARU / BS&T	Corporate, terminals, trucking, warehouses and railway; asset locations follow current industrial/geospatial records.
Entities	Sable Harbor Advisory	Intelligence Advisory, Intelligence Capability and Operational Excellence; one shared professional bench.
Entities	J2	Headquarters, Contact, Judgment, Orientation, JAG, Education, Alexandria and named institutional tools/assets at a legible level of detail.
People	Board and committees	Nine directors and five committees; board appointment year must be explicitly distinguished from employee joining year.
People	Enterprise leadership	Named executive and domain leaders; unnamed offices remain in unresolved roster rather than fabricated people cards.
People	Foundry / Foundry Field	Named product, engineering and deployment personnel.

Type	Chart family	Coverage
People	Atlas Meridian	Only current team assignments confirmed by source; historical collaborators do not become direct reports.
People	Willow	Laboratory members and separately indicated institutional liaison, without making Rachel Gid’s supervisor.
People	Pale Sun / Red Wash	Named platform and mine officers/personnel; external advisers and sellers outside employee tree.
People	Cradle	Kenji Arakawa, Tessa Quinn, Luis Ortega, Maeve Donnelly and any further sourced named personnel.
People	ARU	Named retained officers and logistics management, occupying existing billets.
People	BS&T	Named railway managers; source local-company joining year rather than replacing it with 2026 acquisition.
People	Advisory	President office is established but individual remains open; use unresolved-role list until a person is established.
People	J2 and headquarters services	Named people only where supported; role structures are separate from people cards.
Historical	Original Eight and predecessors	Separate historical people/entity annex; Klein, Emberline, Blackridge and external counterparties must not enter current subsidiary/employee trees.
