

Field-unit assembly and refurbishment · Level 01

Assembly, maintenance and failure investigation | SH-SITE-0005-B02-L01

MODELLED FITOUT NOT EXISTING

30 m depth | end service cores in grey; openings face common circulation
ZONES: blue-grey staff · green restricted · sand public · violet independent audit · tan residence

AREA

Gross 1,440 m². Assignable 972 m².
Core/circulation/service 468 m².

POPULATION

Planned peak 6 concurrent people.
Desks, meeting places, beds and training seats are distinct capacities; do not add them as employees.

ACCESS

Access follows room classification.
Deliveries and equipment use service routes.

DESIGN BASIS

Planning assumptions. Final fire strategy, structure, accessibility and MEP require coordinated engineering.

STATUS

Modelled fit-out; no existing floor, tenure or occupancy asserted.
