Industrial ownership and internal formation record

Document ID: SH-IND-COR-001 | **Version:** 1.0.0

Event/effective date: 2026-01-07 | **Available to case company:** 2026-01-07

Created at: 2026-09-05T22:16:52-07:00 | **Publication cutoff:** 2026-09-05T23:59:59-07:00

Fictional author: Sable Harbor corporate secretary function

Record origin: SYNTHETIC_COMPANY_RECORD | **Evidence state:** SYNTHETIC_RECONSTRUCTED

Decision state: LOCKED_CANON names/ownership; LOCKED_DERIVED_IMPLEMENTATION dates/mechanics

This is an authored reconstruction of a fictional internal record. Its human institutional roles exist inside the case; it is not a government certificate, an executed real instrument, or proof of an actual company's formation. The September 2026 creation timestamp is distinct from the dates assigned to the synthetic evidence.

Controlled company perimeter

ID	Legal company	Form and jurisdiction	Ownership after January 7, 2026	Operating function
SHI	Sable Harbor, LLC	Delaware LLC; Sacramento headquarters; qualified in California as an out-of-state LLC	Ultimate parent; existing member economics preserved	Enterprise stewardship and existing operating businesses
SHIH	Sable Harbor Industrial Holdings, Inc.	Delaware C corporation	100% SHI	Permanent industrial acquisition and capital intermediate
PS	Pale Sun Inc.	Delaware C corporation	100% SHIH	Nuclear-materials platform and Red Wash shareholder

ID	Legal company	Form and jurisdiction	Ownership after January 7, 2026	Operating function
RWH	Red Wash Mining, LLC	Wyoming LLC	100% PS since July 18, 2025	Mine/mill operator; permits, people, inventory, contracts and liabilities
ARU	American Resource Utility, Inc.	Wyoming corporation; post-close C corporation for federal tax	100% SHIH since January 7, 2026	Industrial terminals, trucking, warehouses and railway ownership
BST	Blood, Sweat & Tears Railway Company	Wyoming corporation	100% ARU	Separate common-carrier railroad, property, personnel and operating accountability

SHI is a stable internal key. Its letters do not establish an “Inc.” legal suffix. Headquarters, place of organization, tax classification, and legal employer are separate fields. No Blackridge company enters this perimeter. Foundry, Willow, J2, Cradle and other named capabilities do not become corporations through this table.

Sable Harbor's existing nine-member unitary board is implemented as the board established by the LLC's governing agreement; the new legal form does not add seats or replace its independent Chair. The record does not rewrite historical financing economics, members' rights, or protected board-source bytes. Subsidiary directors/officers implement delegated decisions; ownership does not confer operating qualifications.

Formation and continuity ledger

Effective date	Internal action reconstructed	State and boundary
2016, year precision	Sable Harbor's original Sacramento-centered business is carried under the Delaware LLC legal identity	Founding year preserved; no invented exact government filing day
2024-12-02	SHI establishes SHIH as a wholly owned permanent industrial intermediate	Exact date and subscription mechanics derived; initial nominal subscription is not acquisition consideration
2025-01-13	SHIH establishes Pale Sun Inc.; appoints Mari Varela to oversee mining operations and Evan Vilander to develop the platform	Separate company exists before buying Red Wash; presidency follows performance
2007-09-29	Red Wash Mining, LLC is organized as the dedicated project operator in the reconstructed predecessor chain	Derived legal continuity; earlier land/exploration rights are predecessor assets, not a retroactive operating license

Effective date	Internal action reconstructed	State and boundary
2010-12-18	Northstar Minerals, Inc. acquires the Red Wash company	Henry Norwood controls the seller; NMI is outside the Sable Harbor perimeter
2025-07-18	Pale Sun acquires 100% of RWH membership interests from NMI	Locked deal date and \$28M consideration; separate Red Wash escrow
2025-11-03	Evan becomes President of Pale Sun; Mari continues as COO of Pale Sun and RWH CEO	Derived titles/date preserve both authorities and the same 140-person establishment
1991-01-02	ARU formalizes the existing logistics estate; predecessor owners exchange BS&T shares into ARU	Derived history; railroad existed before its modern parent
2026-01-07	SHIH acquires every ARU share from the Tolman-led seller group	Locked stock acquisition; no statutory merger or rollover

The BS&T predecessor is Bloodstone & Southern Railway, organized on the derived date April 6, 1898. The July 1, 1954 rescue/reorganization and formal name change follow the coal parent's 1953 failure. These exact dates are implementation choices within the approved historical spine; they are not recovered government records. They must agree with the railway history and asset registers.

Internal formation package and authority

The case formation packet consists of the entity register, shareholder/member subscription record, initial officer designations, delegated authority table, separate-book instructions and record-retention direction. These are the controlled internal records needed to explain the case. No seal, certificate number, tax identifier, regulator signature or government-issued replica is fabricated. Actual filing replicas remain outside this scope.

SHIH holds subsidiary equity and acquisition funding. Pale Sun holds the RWH investment and its platform payroll; RWH holds mine-specific assets, permits, inventories and operating liabilities. ARU holds reusable Taylor/multi-customer assets; RWH holds mine-specific receiving assets. BS&T keeps railway property and its own books within ARU. A tax-disregarded classification never erases a legal corporation or operating ledger.

Pre-close ARU S status and BS&T QSub status, their termination and the elected acquisition treatment are explained in the tax memorandum. The financial source controls numerical opening balances. This record creates no independent balance-sheet amounts.

Sources and supersession

Controlling company records: [entity register](#) and [chronology](#). This record supersedes the former Pale Sun nonentity rule, open parent/operator/seller legal-name fields and direct SHI-to-industrial-platform charting within this scope. Frozen finance releases and dated historical records remain preserved with explicit supersession.
