
Account for the ARU acquisition

SH-CASE-ARU-01 · ARU acquisition opening · 7 January 2026

Public learning material. New brief design is draft for exact-file review.

Situation

A stock purchase and refinancing establish a new opening trial balance. Fees, retained leases and buyer cash have different accounting treatments.

Question

Do the funding bridge and opening entries agree, and what evidence would support the closing?

Open these files

1. Acquisition task and evidence — Read the task and exact selected evidence.
2. Acquisition working paper — Complete the supplied acquisition working paper.
3. Transaction walkthrough workbook — Use ARU opening, Monthly trace and ARU closing only if extending into 2026.

Submit

Submit the funding bridge, opening debit–credit check, book/tax goodwill comparison and a short evidence conclusion. Keep buyer costs separate from the ARU opening.

Scope limit

Opening acquisition reconstruction. Post-cutoff 2026 activity is a management scenario; the separate 2027 forecast is not added to these books.
