

THE SMALL SHED / LEVEL 02

Six temporary guest rooms · no permanent housing · One floor shown · North is up

CONCEPT REVIEW / R02
SH-FAC-FORT-SMALL-L02 / SH-MAP-WIL-025

THIS FLOOR

6

RESIDENTIAL ROOMS

9,300

GROSS SQUARE FEET

PEOPLE / CAPACITY

Planned concurrent load: 6. Fitted workplaces, meeting seats, learners and residents are separate measures; actual occupancy remains unestablished.

COORDINATED BUILDING

2 levels use the same footprint and aligned service/core positions. Rooms are local concept allocations, not an as-built survey.

ACCESS AND STATUS

Every guest room opens independently to the same 3 m clear central corridor, which connects protected end stairs in both directions. No room exits through another room. West accessible lift provides the concept step-free route; the two end wet/service cores remain aligned with Level 1.

01 COORDINATED ACCESS

Room entries connect to shared or controlled circulation; vertical cores are coordinated across the building.

02 PLANNING BOUNDARY

Local concept geometry preserves current functions. Occupancy, construction, engineering and exact parcel evidence remain separately governed.
