
Trace the Red Wash closure obligation

SH-CASE-RW-01 · Red Wash · 18 July 2025 acquisition through the 2026 successor model

Public learning material. New brief design is draft for exact-file review.

Situation

The acquisition assumes a closure liability. The successor opening and forecast closing balance reflect accretion and later movements.

Question

Can the liability be traced across dates without treating a modeled estimate as independent engineering evidence?

Open these files

1. [Red Wash acquisition and closure source](#) — Read the acquisition and closure assumptions.
2. [Red Wash walkthrough instructions](#) — Follow case 3 and its exact source links.
3. [Transaction walkthrough workbook](#) — Open RW closure liability; complete journal rows are in the companion CSV/SQLite.

Submit

Submit an acquisition-to-opening bridge, opening-to-closing rollforward and a list of unsupported engineering, timing and escrow conclusions.

Scope limit

Escrow and holdback are consideration components, not extra purchase price or proven current cash. The calibrated cash-flow model does not independently corroborate its input liability.
