

BS&T / pre-acquisition case

Candidate A / two external-customer branches / Taylor transload / truck-only Red Wash access

ACCEPTED SYNTHETIC CASE / NO SURVEY OR REAL LAND-RIGHTS CLAIM

TEMPORAL CUT

06 Jan 2026, before SHIH acquired ARU on 07 Jan. Current track is the accepted case reconstruction, with explicit synthetic opening dates.

HISTORY RETAINED

1898 coal origin; 1954 rescue; 1968 Taylor mainline; 1972 East Materials; 1986 Mineral Transfer; ARU parent from 1991.

NO BACKFILL

1898 alignment and the surviving 14-16 miles in 1954 remain unlocated. Modern 40-mile geometry is not a measured early railway.

MINE SEPARATION

Red Wash is outside ARU. All 2025 mine movements remain external-carrier. The 2026 inbound interface and receiving facility are not shown as pre-acquisition operation.
