

Historical programs and external counterparties

Document ID: SH-BIZ-BOUNDARY-001

Version: 1.0.0

As of: September 9, 2026

Owner: Corporate records / Finance

State: CURRENT SOURCE SYNTHESIS

Name	Boundary	Useful records	Consolidation rule
Emberline	Historical capability, active through 2025	customer/experiment closeout and transfers into Foundry, Willow, field work and Advisory	No new active 2026 P&L or entity.
Klein	Historical 2020–2022 outpost; rechartered Willow	mandate, historical customer work, asset/people/record dispositions	Internal transition; no invented acquisition, goodwill or current subsidiary.
Quality Forest Communications	Eli Hoberg's earlier company	founder history and approved identity	No automatic SH vendor, acquisition or opening balance.
Gid's balloon activity	Personal	appropriate biographical context	No corporate revenue, expense or assets without a supported transaction.
Kelly Gang Mining	External Tasmanian Cradle host	Stream 17 rights, custody/title, host settlement	Counterparty only; host operations and payroll excluded.
Demotte Reclamation Services	External West Virginia treatment host	controlled slipstream, bypass/stop, sampling and recovery rights	Host owns treatment/compliance; no consolidated host plant or payroll.
Northstar Minerals, Inc.	External Red Wash seller	executed synthetic acquisition chronology and seller proceeds	Acquisition counterparty; do not consolidate seller books.
Blackridge	Separate case universe	its own operating/evidence packages and limits	Never merge its history or books into Sable Harbor.

Sources: current corporate lore; Willow/Klein and Cradle closeouts; September 7 identity decisions; industrial acquisition records. A counterparty dossier can document the interface without fabricating the counterparty's whole company. Historical assets retain original cost, accumulated depreciation and custody where available; missing historical amounts are labeled reconstructions, not plugs.

For a transfer record, retain origin program, receiving cost center, effective date, asset/record identifier, owner acceptance and disposition. For an external counterparty, retain rights, commercial obligations, information boundary and settlement identifier. Neither workflow creates a new legal entity.
