

Dated enterprise appointments and workforce identity reconciliation

Document ID: SH-ENTERPRISE-PPL-20260913

Version: 1.0.0

Owner: Repository owner / Corporate Governance

Effective: September 13, 2026

State: OWNER-AUTHORIZED DELEGATED IMPLEMENTATION; current appointment canon becomes LOCKED only on accepted merge. Branch publication does not assert acceptance, signed Board minutes or owner approval of revised pixels.

The submitted audit-suite handover delegates ordinary fictional role completion and enterprise reconciliation (sections 3.1, 3.3 and 22). This decision implements fifteen occupants of existing functions. It does not authorize fifteen incremental hires, retrospective employment dates, additional J2 billets, site commissioning or a change to any immutable financial release. This record supersedes unnamed current occupants for the offices below only; earlier employment and office histories remain unknown.

Dated appointments

Person ID	Name	Office	Existing function	Effective date
AS-P001	Lila Kestrel	Chief of Enterprise Support Services	ESS	2026-09-13
AS-P002	Adrian Lowe	Chief Financial Officer	Finance	2026-09-13
AS-P003	Helena Ward	General Counsel	Office of General Counsel	2026-09-13
AS-P004	Nina Rowan	Corporate Secretary	Office of General Counsel	2026-09-13
AS-P005	Martin Ives	Head of Risk and Compliance	Risk and Compliance	2026-09-13
AS-P006	Sofia Hart	Head of People and Culture	People and Culture	2026-09-13
AS-P007	Elliot Tran	Head of Enterprise Technology Services	Enterprise Technology Services	2026-09-13
AS-P008	Dana West	Chief Information Security Officer	Enterprise Security	2026-09-13
AS-P009	Rowan Price	Head of Internal Audit	Internal Audit	2026-09-13
AS-P010	Cameron Shore	President of Sable Harbor Advisory	Advisory	2026-09-13
AS-P011	Clara Bennett	Corporate Controller	Finance	2026-09-13
AS-P012	Victor Lane	Facilities and Workplace Lead	Facilities	2026-09-13
AS-P013	Erin Cross	Procurement and Supplier Risk Lead	Procurement	2026-09-13
AS-P014	Omar Vale	Data Governance and Records Lead	Data Governance	2026-09-13
AS-P015	Evie Quinn	Enterprise Safety and Environmental Governance Lead	Safety and Environment	2026-09-13

The [structured roster](#) preserves stable identifiers, source references, unresolved employment start dates and conditional position aliases. Appointment date is not a company joining year. Cards therefore retain “Year not recorded.” These identities describe the fictional enterprise; they are not real employees or professional certifications.

Authority and independence

ESS coordinates administration, service delivery and evidence custody. It has no substantive veto over CFO finance duties, General Counsel's legal duties, Internal Audit or J2. Internal Audit reports functionally to the Board Audit & Compliance Committee; CEO administration cannot impair that function. J2 retains its accepted CEO/Board route and 237-billet establishment. Advisory retains its common delivery bench and is not J2 staff.

Management operating review and independent assurance are separate assignments. Named operating reviewers may check records and perform expressly assigned quality review; a Board or committee contact cannot provide collective approval alone. Reserved decisions require the existing body's actual quorum, decision and authority records. Neither the Corporate Secretary nor an independent director's presence converts an authored record into signed Board minutes. [Coordination and delegation addendum](#).

Population, payroll and premises

The accepted pre-change source has 44 named current employees and seven nonemployee directors. This branch adds fifteen dated names to the current source, producing 59 employee identities and seven directors (66 named current people); it does not establish total actual employment. Former Rachel Kim and existing duplicate display cards remain preserved. Acceptance-pending names must remain distinguishable from the pre-change accepted source until merge.

Thirteen names alias existing occupied ESS positions 001–013, one aliases Internal Audit position 001, and one aliases Advisory position 001 in the conditional 2027 model. Group occupied/authorized counts remain ESS 48/54, Internal Audit 8/10 and Advisory 32/36 at initial model state. The existing monthly model may subsequently change those counts through its retained events. Aliases attach to the modeled person and position together, so a later replacement does not inherit another person's identity.

The [versioned workforce bridge](#) reconciles 2027–2031 source-model events, monthly headcount and payroll without editing original forecast or financial evidence bytes. Named-slot loaded costs are already included in group totals. Incremental forecast headcount and payroll from naming are zero; actual 2026 payroll and employment changes remain unknown. Per-control workload remains unmeasured.

No individual is assigned an occupied desk or commissioned facility. Sacramento's modeled 362 workplaces remain capacity rather than actual occupancy. Site, workplace, attendance, remote status and employment start dates remain unestablished until supported separately.

Publication and acceptance

The prior approved vector master and display source are preserved byte-for-byte in [history/v1.1.0](#). The v1.2.0 successor retains existing typography, logos, page geometry, original cards and organization edges, adds fifteen membership cards, and updates publication footers. Engineering review and exact source-to-card checks do not assert owner pixel approval.

No source-locked financial document, earlier approved artwork, J2 appointment history, external identity or unrelated OPEN canon decision is rewritten. Repository maintainers must accept this dated decision and its reconciled derivatives before the additions are described as accepted controlling canon. No Board signatures are fabricated.
