THIS FLOOR

2

FITTED WORKPLACES

9,300

GROSS SQUARE FEET

PEOPLE / CAPACITY

Planned concurrent load: 4. Fitted workplaces, meeting seats, learners and residents are separate measures; actual occupancy remains unestablished.

COORDINATED BUILDING

1 levels use the same footprint and aligned service/core positions. Rooms are local concept allocations, not an as-built survey.

ACCESS AND STATUS

Access follows the sourced circulation and room classification. Geometry, services and final code review remain design dependencies.

01 COORDINATED ACCESS

Room entries connect to shared or controlled circulation; vertical cores are coordinated across the building.

02 PLANNING BOUNDARY

Local concept geometry preserves current functions. Occupancy, construction, engineering and exact parcel evidence remain separately governed.

Blue: operational work / Sage: secondary program / Sand: shared and visitor areas
