

# Taylor Industrial Transload Complex · master plan

Concept spatial program; current geographic context remains separately sourced

SYNTHETIC OPERATING

N

SITE BASIS

Local east/north diagram using source acreage and aspect ratio; no survey transform. Original georeferenced polygon is retained by reference, never replaced. Proposed building placements are illustrative, not surveyed.

PROGRAM

Known operating functions; schematic fit-out only.

OWNERSHIP AND TIME

American Resource Utility, Inc. — accepted synthetic owner, not real title evidence. Exact occupancy and construction dates remain unestablished.

DEPENDENCIES

Local geometry does not relocate industrial anchors or create installed process equipment, transport rights or host ownership.

CAPACITY

People and seats are separate measures. See population bridge and source assumptions.

ACCESS LEGEND

- Service / emergency
- Pedestrian
- Public arrival
- Controlled entry
