

SACRAMENTO REGIONAL CONTEXT

Official reference layers · conceptual campus remains geographically unplaced

CONCEPT REVIEW / S01

N

- Street reference
- Rail reference
- Water
- Class 1 shared-use paths
- SacRT feed stop locations
- USGS elevation samples

UTM zone 10N / EPSG:26910. North up.
Projected reference map, not a cadastral survey.

SacRT feed: 9 Aug 2026–2 Jan 2027. Stops do not establish operating service on a particular day. Paths do not establish accessible campus connections.

Terrain: 81 USGS DEM samples, not a survey or engineered contours. Roads and rail retain their individual source vintages.

The approved 840 × 600 ft campus is a separate local model. It has no geographic transform, parcel fit or entrance connection.
